

Non-Gos - 7-Letter Duds

These combinations do not form an allowable bonus word. They are sterile racks (in themselves). When these combinations turn up on your rack, start considering 8-letter derivatives straight away.

We have dressed these Non-gos up as plausible-sounding words to make them easier to remember. The number of eight-letter words that can be formed with one letter on the board is indicated in brackets. You can use a word list software program like LeXpert or Video Flashcards to generate the eight-letter words for each Non-go.
